March 10, 2016

CURRENT RESIDENT
105 W Pierce st
Whitestown, IN 46075

Attention Legacy Core Residents
We've heard your concerns of
standing water and flooded yards!
We're trying to fix it and NEED
YOUR HELP to apply for
Grant Dollars!

Questions regarding the grant?
Jason Lawson, Public Works Director
Town of Whitestown
733-8584

The Town of Whitestown is applying for a Community Development Block Grant (CDBG) through the Indiana Office of Community and Rural Affairs (IOCRA) to help with our stormwater.

However, in order for Whitestown to receive grant dollars, we must provide a combined summary of incomes for households identified in the Legacy Core stormwater project.

All information provided will be confidential and only a collective summary will be included in our grant application.

We need **YOUR**
completed survey
to determine if
we're eligible for
grant dollars.

HOW CAN YOU HELP US APPLY FOR GRANT DOLLARS?

There are 164 households that have been identified in the Legacy Core stormwater project area.

Each Legacy Core household has received a survey. In order to determine if we're eligible to apply for grant dollars to help with the stormwater project, **EACH household must complete and return the enclosed survey.**

We've heard you and we're doing what we can! But we need your participation with the survey to apply for stormwater grant dollars. The survey will only take a few minutes of your time.

If we do not receive your initial survey, a reminder survey will be mailed. Every time the surveys are mailed, it costs the taxpayers money for the material and postage, so your reply to the initial survey is greatly appreciated!

The OCRA CDBG Program is a federally funded grant program intended to benefit a majority of low-to-moderate income persons with various community development public assistance projects such as planning studies, improvements to community centers, wastewater, water, roads, bridges, etc...

To receive the federally funded grant dollars, an income survey for residents benefiting from the water project must be completed.
